BEST PRACTICE NO 2: Through diverse social events, sustainable practises are used to promote architecture imbibe sustainable practices.

Aim: To make students environmental conscious architects.

Objectives of the Practice

1. To provide a forum for the discussion and promotion of Architecture and Art through sustainable practices.
2. To Contribute towards improvement of public places and their cleanliness
3. To inform and motivate young people about Heritage walk , promoting walking culture
4. To encourage and promote students to to do activities towards environment and nature

The Context

It starts with planning architecture exhibits, giving students and the community a place to connect. At the same time, TCOA encourages students to create art and architecture from waste materials. TCOA supports conducting heritage walks, encouraging a culture of walking, and using local transport. The institution organises Cleanliness Drives, Tree Plantations, and Beautification Drives to create a sustainable environment with community involvement. The institute supports the use of sustainable concepts to create areas that are disabled-friendly.

Problems Encountered and Resources Required

Problems: To ask local government for the appropriate permits and authorization before engaging in any activity in a public location. Identifying and arranging the activities clearly to maintain their sustainability. Every stakeholder is involved in the planning and execution of TCOA's activities. A committee charged with setting up, arranging, and carrying out the objectives. A group of faculties charged for communicating with local government officials, obtaining approvals, and ensuring rules are obeyed

Outcome

The modern world needs practises that are both environmentally friendly and sustainable. Any practise by an architectural student should be environmentally friendly.

Trinity college of Architecture

REPORT

EXHIBITION: ELYSIAN

SUBJECT : Environmentally favourable material are used for exhibition like Recycled or upcycled material

TCOA promotes environment conciousness in every aspect of college where exhibition is one of them.

By embracing the use of recycled or up cycled materials in exhibitions, TCOA encourages and embraces sustainable practices. The TCOA promotes students' use of recycled materials to create art installations with less waste. In addition to encouraging ecologically friendly behavior, TCOA hopes to encourage visitors, students, and parents.

Students used a wide range of waste materials, including paper cups, cardboard, old cables, scrap metal, and newspapers. Students investigated the concept of using waste materials to creatively develop art work and producing a sustainable result for display.

Both visitors and parents engaged in interactive activities during the show. It advocates living sustainably and making environmental protection a priority. For the visitors, the art exhibit provided a personal introduction to the reuse idea.

OUTCOME

1. Information and instruction

Exhibition educates tourists and schoolchildren about trash reduction. It acts as a forum for discussion of current environmental concerns and promotes sustainable lifestyle choices in all facets of life.

2. Innovative concepts were presented

In order to build the project, students were compelled to think creatively outside the box. Each student employed a unique strategy to design using little materials.

3. Environmental Impact

By reducing the environmental footprint of its exhibitions, TCOA lessens its influence on the environment.

4. The audience's participation

Visitors and students are motivated to embrace sustainable lifestyles by the exhibition. It motivates everyone to reduce their environmental carbon footprints.

- A construction yard of 200 and above square meters is available in the College Campus where hands on workshops on building construction techniques are conducted. Such a yard gives ample opportunity for the students to experiment with various building materials and building construction technology within the Campus itself.
- The process of learning can't be concentrated in the class room only. Students need exploration of construction process by hands-on-experience.
- A construction yard gives opportunity to the students for hands-on-experimentation and exploration with building materials and construction technology.
- The construction yard is equipped with allied materials and tools required for construction process of building components.

"Swacch bharat Abhiyaan : Diveagar Beach cleaning"

TCOA Awareness 2022-23

Type of Activity	Awareness	Venue	Diveagar Beach
Date	10 th April 2023	Time	10:00 am
Targeted Audience	Neighborhood community	Number of Audience	30
Organized by	TCOA	Expenditure	0

The Beach Cleaning Awareness campaign was a students effort aimed at preserving coastal ecosystems, promoting responsible tourism, and combating marine pollution. The initiative involved collaboration with gram panchayat.

Objectives:

Combat Marine Pollution: To raise awareness about the detrimental effects of marine pollution on coastal ecosystems and wildlife.

Encourage Responsible Tourism: To educate beachgoers about their role in maintaining the cleanliness and health of coastal environments.

Foster Community Engagement: To mobilize and engage community members, including residents, tourists, and businesses, in beach cleaning activities.

The Beach Cleaning Awareness campaign successfully mobilized the community and visitors alike in the preservation of coastal ecosystems. The positive feedback, increased community engagement, and cleaner beach environment demonstrate the effectiveness of community-led environmental initiatives.

"Narayan Gaon School Awariness for Tree Plantation"

TCOA Awareness 2022-23

Type of Activity	Awareness	Venue	Narayan Goan
Date	22 nd December 2022	Time	10:00 am
Targeted Audience	To school children	Number of Audience	20
Organized by	TCOA	Expenditure	0

Aim is to raise awareness about tree plantation among school children is crucial for instilling environmental consciousness from a young age. Here are some effective strategies to promote tree plantation awareness in school. Conduct engaging workshops and presentations with visuals, hands-on activities, and interactive discussions to educate children about the importance of trees. Use storytelling as a medium to convey the significance of trees. Provide books that revolve around tree planting, conservation, and nature. Encourage students to involve their families and neighbors in tree planting initiatives. This can help create a wider impact beyond the school premises.

This helped instill a sense of responsibility towards the environment and a lifelong commitment to tree conservation in fun, engaging, and memorable for the children.
